PROFESSIONAL SUMMARY

Information Technology graduate with hands-on full-stack web, mobile, and game development experience from internship, freelance, and academic projects. Strong foundation in object-oriented programming (OOP), Git version control, and web technologies — eager to learn new frameworks and grow in a team-based environment.

SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Java, C#, Dart, GDScript, HTML, CSS

Frameworks & Libraries: React, Next.js, Flutter, Redux, Zustand, Tailwind CSS, ASP.NET, REST APIs, Socket.IO

Game, AR & Databases: Unity, Vuforia, Godot, Blender 3D, C#, PostgreSQL, MySQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code, Figma, Postman, Android Studio, Aseprite

WORK EXPERIENCE

Freelance Developer

2023 – Present

Self-Employed | Remote | React, Flutter, MongoDB, Socket.IO, Godot, Firebase

- Built a cross-platform cafe system — a Flutter app for customer ordering and a React admin panel for orders and deliveries — with real-time order sync via Socket.IO and MongoDB.
- Developed Disaster Ranger, a 2D Godot game with 4 disaster-preparedness scenarios teaching children emergency response.
- Delivered full-cycle web and game solutions for clients, from scoping through deployment.

Frontend Developer Intern

Feb 2025 – May 2025

Bulacan State University | Malolos, Bulacan | React | 486 hours

- Built React UI components for Document Tracking, Record Management, and Vehicle Trip Ticket systems.
- Integrated REST APIs with backend developers to ensure consistent data flow across all frontend interfaces.

PROJECTS

Learning Management System: Science with AR

Mar 2026

Solo Developer | Unity, Vuforia, Blender, React, Firebase

- Built an AR-integrated LMS for Grade 7 Science (MATATAG Curriculum) with 24 interactive 3D models (6 per quarter) covering atoms, cells, and states of matter.
- Engineered the AR pipeline in Vuforia and Unity, and built the companion web app in React with Firebase.

Case No. Zero: A Philippine Legal Crime Narrative

Dec 2025

Capstone | Team Lead & Lead Developer | Godot, GDScript

- Led the team and built all 3 core systems: investigation, dialogue, and courtroom.
- Designed the full gameplay loop simulating Philippine legal investigation and trial procedures.

Library Attendance and Circulation Monitoring System

Jun 2025

Team Lead | HTML, CSS, JavaScript, PHP, PostgreSQL, Android Studio

- Led a 4-person team building a web and mobile library system with dashboards, auth, and circulation tracking.

EDUCATION

BS Information Technology

2022 – 2026

STI College Balagtas | Bulacan, Philippines

CERTIFICATIONS

11th TOPCIT Certificate — TOPCIT

Nov 2024

System Administration — STI Balagtas

Dec 2023

Java Fundamentals — STI Balagtas

Jun 2023
